[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Recognizing the need to carry out all principles of the Corporate Governance Code in order to achieve the sustainable growth of the JFR Group and increase corporate value over the medium to long term, the Company has begun taking initiatives to implement all principles.

【Principle 2-3, Supplementary Principle 2-3-1】 Sustainability

With the aim of ensuring sustainable growth of the JFR Group and increasing corporate value over the medium to long term, the JFR Group has made efforts to build and deepen relationships of trust with all stakeholders (customers, shareholders, business partners, employees, local communities, etc.) through various corporate activities based on the basic philosophy and Group Vision and has taken proactive steps in dealing with social and environmental issues and other issues. In order to enhance the strategic positioning of CSR and clarify relevant activities of the entire Group from the current fiscal year, the JFR Group has established

the ESG Promotion Division as a specialized department in March. During the current fiscal year, the Company identifies important issues (materiality) that it should handle as executive matters when solving social issues, etc., through the entire Group's business activities from a long-term perspective, and officially determines and discloses the order of priority, etc., through discussions at the Board of Directors meetings as the next step. To do so, the JFR Group uses the results of a questionnaire survey of 4,478 stakeholders conducted to extract CSR issues. The JFR Group will formulate specific action policies including its sustainability policy to promote these initiatives of the entire Group more speedily.

[Disclosure Based on the Principles of the Corporate Governance Code]

Based on the “comply or explain” rule, the Code requiring disclosure in the previous column, “Reasons for Non-compliance with the Principles of the Corporate Governance Code,” and this column, “Disclosure Based on the Principles of the Corporate Governance Code,” is limited to the following:

- The principles that require disclosure as stipulated by financial instruments exchanges

The Company, however, discloses the following matters in recognition that the disclosure (“comply and explain”) leads to promoting constructive dialogue with shareholders and investors.

- Principles that are currently implemented but for which the Company only recently began the initiatives for the implementation.
- Principles for which policies, ideas, etc. have been in place by convention but have not been explicitly stated or announced.
- Principles that have been implemented conventionally but for which the Company considers further enhancement of substance is necessary.
- Current status of the Company's efforts regarding corporate governance

【Supplementary Principle 1-2-5】 Participation of Beneficial Shareholders in Shareholders Meetings

For the policy on participation of beneficial shareholders in shareholders meetings, please refer to “1. Shareholders Meetings, (2) Developing an Environment Appropriate for Exercising Voting Rights and Other Rights of Shareholders, (v)” in “Chapter 2. Relationships with Shareholders” of the Guidelines.

There were no special requests filed by beneficial shareholders at the 11th Annual Shareholders Meeting.

At the 10th Annual Shareholders Meeting held in May 2017, the Company amended the Articles of Incorporation in accordance with the aforementioned policy to enable an institutional investor that owns shares in the name of a trust bank, etc. and does not own shares in their own name to attend a shareholders meeting and exercise voting rights as a proxy. For details, please refer to the following page on our website.

(http://www.j-front-retailing.com/_data/news/170410_articles_E.pdf)

【Principles 1-3, 5-2】 Basic Capital Policy

For the capital policy, please refer to “2. Capital Policy” in “Chapter 2. Relationships with Shareholders” of the Guidelines. In FY2017, the Company implemented the following measures in accordance with the aforementioned policy and achieved an ROE of 7.5% for the fiscal year.

- Undertaking strategic investment

The basic approach taken regarding the Group’s recurring capital investment is to keep such investment within the scope of the amount of depreciation. In FY2017, the Company made total capital investment of 27,021 million yen, which was a result of recurring investment combined with proactive implementation of strategic investment. The major facilities completed during FY2017 are construction relating to GINZA SIX, construction relating to Ueno Frontier Tower, and asset purchases associated with the redevelopment project of the Shibuya PARCO.

Moreover, the Company has developed a framework that it is making use of to carry out financial strategy with the aim of heightening profitability of invested capital. Accordingly, for new investment projects entailing funds beyond a certain amount, the Company has established the Investment Plan Review Committee which scrutinizes profit and loss targets and performs verification from a financial perspective encompassing assessment of suitability in terms of qualitative aspects of investment plans. For low-profit and low-growth companies and divisions among existing businesses, the Company has established the Revitalization Plan Review Committee which draws up revitalization and withdrawal plans based on financial aspects from the perspective of investment recovery.

- Enhancing shareholder returns

For the year ended February 28, 2018, the Company provided an annual dividend from surplus of 35 yen per share, an increase of 5 yen per share year on year for ordinary dividend plus a commemorative dividend of 2 yen to celebrate the 10th anniversary of the Company. For the year ending February 2019, the Company is scheduled to provide an annual dividend from surplus of 35 yen by making increase for ordinary dividend of 2 yen (eight consecutive years of dividend increases).

- Expanding net worth

The total amount of interest-bearing debt was approximately 184,200 million yen as of February 28, 2018 (a decrease of approximately 21,700 million yen compared to February 28, 2017). The interest-bearing debt to equity ratio was 0.47 times, and the ratio of equity attributable to owners of parent to total assets was 38.7% for an increase of 2.0 percentage points compared to February 28, 2017.

- Business portfolio and investment plan

During the five-year Medium-term Business Plan period, we will use 200.0 billion yen for capital investment and growth-oriented investment in existing business innovation and business portfolio reforms, aiming to generate operating cash flow of 260.0 billion yen or more. In addition, our

business portfolio under the Medium-term Business Plan aims to reduce the percentage of Department Store Business and PARCO Business from nearly 90% to about 70% in terms of the Group's operating profit, and increase the percentage of Real Estate Business and other new businesses by strengthening and expanding them.

* We have adopted the International Financial Reporting Standards (IFRS) since FY2017. Accordingly, we calculate year-on-year comparison figures by converting the actual figures for FY2016 to those based on IFRS.

【Principle 1-4, Supplementary Principle 1-4-2】 Cross-shareholdings

For the policy on cross-shareholdings, please refer to “3. Cross-shareholdings” in “Chapter 2. Relationships with Shareholders” of the Guidelines.

In accordance with the aforementioned policy, in the Board of Directors meeting held in August 2017, the Company reduced cross-shareholdings by verifying the Group's objective of holding individual shares, dividend income and other economic rationale from qualitative and quantitative perspectives, and risk of continuously holding them. In FY2017, the Company sold all shares of 12 companies and partially sold shares of two companies (proceeds from the sales amounted to approximately 1,320 million yen). As a result, the JFR Group maintained cross-shareholdings in 48 companies (approximately 6,300 million yen recorded on the statement of financial position) as of February 28, 2018. Also, from the current fiscal year, the Company has established the guidelines for exercising voting rights relating to cross-shareholdings and implemented them in line with the entire Group's policy.

【Supplementary Principle 1-4-1】 Handling of Requests from Holders of Cross-held Shares Regarding the Sale of JFR Shares

In case a shareholder who holds JFR shares for the purpose of cross-shareholding indicates intention to sell JFR shares, the Company will never conduct activities to hinder the sale of cross-held shares by implying a reduction of business transaction, etc., and will appropriately handle the sale, etc.

【Principle 1-7】 Related Party Transactions

For the procedure, etc. for related party transactions, please refer to “5. Related Party Transactions” in “Chapter 2. Relationships with Shareholders” of the Guidelines.

【Principle 2-2, Supplementary Principle 2-2-1】 Establishment and Implementation of the Company's Code of Conduct

Along with the development of the Group Vision, the Company has established “JFR Way” as a code of conduct for the entire Group to realize this vision. (Please refer to “1. Basic Views” in “I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information” of this report.)

To facilitate the understanding and dissemination of the Group Vision and solidify relevant activities, the

management's messages and employee pledges for action have been disclosed via the Company's internal website and in-house magazines. Since May 2017, the Company has also started the "Challenge Card program" through which employees are allowed to submit their original ideas to senior personnel throughout the year. This program encourages employees to express their ideas freely without setting limitations on their contents. In FY2017, a total of over 1,700 proposals were made, such as ideas related to products and services and new business plans. Since some of them have been well accepted by customers, the Company considers that certain permeation of the Group Vision has been achieved.

The Board of Directors regularly reviews to determine whether the "JFR Way" is widely disseminated within the group and a corporate culture/climate that respects their purpose and spirit has been realized.

【Principle 2-4】 Ensuring Diversity, Including Active Participation of Women

Under the structure of the Board of Directors, the Company has appointed 13 Directors including two female Directors (independent Outside Directors), aiming to ensure the effectiveness of the entire Board of Directors based on a variety of senses of value. The Company also considers it important to create new value with the combination of different elements obtained by exchanging a variety of personnel's opinions when executing operations. Regarding women's career advancement in particular, the Company is taking various measures including the "JFR Juku (cram school) for Women," a selective training program offered to help employees with young children improve motivation and change the way they think, and the "Mother Recruitment" that aims to extensively hire external personnel wishing to further fulfill their lives by balancing child care and work. In addition, the Company is continuously working on development and enhancement of female-friendly workplace systems.

Number of female general managers: 12 (11.8% of 102 general managers in total)

Number of women in other leadership positions: 221 (35.9% of the 616 employees in other leadership positions in total)

* Women in other leadership positions include those acting as managers, sub managers, buyers (including developers and editors), and team leaders (including supervisors and section leaders from Daimaru Matsuzakaya Sales Associates Co. Ltd.).

* Daimaru Matsuzakaya Department Stores has three female executive officers.

【Principle 2-6】 Roles of Corporate Pension Funds as Asset Owner

Under the pension plan for Daimaru Matsuzakaya Department Stores Co. Ltd., a main operating company

of the Group, investments are made through appropriate asset diversification and allocation to ensure long-term returns in line with the asset investment objective of ensuring the stable sources of future benefits. The Company has formulated its asset investment policy on the selection of an investment management organization and a fund, and strictly reviews the management details, social assessments, investment experiences and results, legal compliance system, etc., based on assessments made by assessment agencies with a good reputation. The Company also monitors whether the said organization exercises voting rights, etc., in an appropriate manner. In addition, the Company carefully selects suitable personnel, and especially when replacing Investment Management Directors, it lets them acquire necessary working knowledge by having them attend various seminars (e.g., the seminar for newly appointed Investment Management Directors sponsored by the Pension Fund Association, seminars offered by financial institutions conducting operational management of pension plans, and seminars offered by investment institutions) at the time of new appointment.

In accordance with the schedule planned in advance by the Board of Directors, the Company has regularly and multiple times verified and shared the progress of the Medium-term Business Plan implemented in March 2017. The Company will continue these initiatives in the current fiscal year.

【Supplementary Principle 4-1-3, 4-3-2, 4-3-3】 Succession Planning

Selection and dismissal of the Chief Executive Officer

It is a critical aspect of strategic decision making, and accordingly the Company regards drawing up and implementation of plans regarding successors (next senior management team) as matters of particular importance in terms of management strategy.

The Company ensures clarity and transparency in the process of selecting successor candidates through repeated reviews of successor candidates’ individual evaluations based on assessments made by a third-party organization using internal data. The deliberations are conducted by the Nomination Committee and Remuneration Committee, in which Outside Directors comprised a majority. In the process of deciding a successor, the Board of Directors plays a supervisory role focused on realizing the basic philosophy and the Group Vision, based on proposals received from the Nomination Committee. With regard to the qualities required of successors, the Company clearly defines the necessary values, capabilities, and behavioral traits in the form of the five qualities required of a corporate officer in the Guidelines under “Desirable qualities required of JFR Group managerial talent.” These are a strategic mindset, reform-oriented leadership, tenacity for achieving results, organization development strengths, and human resource development strengths. The Company endeavors to ensure impartial cultivation and selection of successors by sharing these qualities among all members of the Nomination Committee to make them all aware of the measures used in cultivating and assessing successors. In addition, dismissal of the Chief Executive Officer is determined by the Board of Directors after being discussed and resolved by the Nomination Committee based on the goals set, expected and actual results (e.g., annual performance and strategy execution status), and the status of results, etc., achieved by successor candidates who are selected under the succession plan made by the Nomination Committee. The Nomination Committee will continue to have discussions on succession planning in a planned manner so that changes in environments and situations surrounding the Company, progress of strategies formulated, etc., can be reflected in such planning.

The Nomination Committee also discusses and resolves the dismissal of senior management team members as in the case of the Chief Executive Officer.

【Principle 4-2】 Roles and Responsibilities of the Board of Directors, Environmental Improvement that Supports Appropriate Risk Taking by the Management

Change in the business environment is a source of uncertainty that a company cannot avoid. But that uncertainty has positive aspects, as risk means opportunity, as well as the negative aspect of threat. In

addressing such uncertainty, we tackle strategic issues raised in the Medium-term Business Plan in terms not only of risk-hedging, but also of risk-taking for growth.

The Company has also established the Risk Management Committee as an advisory body for its President and Representative Executive Officer to extract risks related to the JFR Group and formulate, implement and monitor measures against individual risks.

During the current fiscal year, the Company will extract 138 risk items as those related to the JFR Group, choose 15 items out of them as special corporate risk priorities, including six items that will be reflected in the current year strategies, and continue to monitor the progress.

【Principles 4-6, 4-8】 Management Supervision and Execution, Effective Use of Independent Outside Directors

The basic views of the Company under the new corporate governance structure with three committees are that one-third or more of the Board of Directors must be independent Outside Directors and a majority of members must be independent Outside Directors and/or internally promoted Directors who do not execute business. By doing so, the Company aims to separate supervision and execution, ensure the effectiveness of the Board of Directors' discussions, and maintain and improve transparency and objectivity. In addition, three internal Directors who do not execute business, and are well informed about internal information because of their extensive business experience in businesses of the JFR Group companies, fulfill their roles as chairperson of the Board of Directors, chairperson of the Audit Committee, or Audit Committee members, and five independent Outside Directors, who have extensive external management experience or in-depth knowledge in specialized areas, fulfill their roles as chairperson of the Nomination Committee, chairperson of the Remuneration Committee, or members of any of the three committees, so that the effectiveness of independent and objective management supervision can be ensured.

【Principles 4-7, 4-10, Supplementary Principle 4-10-1】 Optional Advisory Committees

The Company, in principle, holds monthly meetings of the Governance Committee, an optional advisory committee comprising of the chairperson of the Board of Directors, President and Representative Executive Officer, and all Outside Directors. The Governance Committee engages in constructive discussions and exchanges of views with respect to matters such as addressing issues to make meetings of the Board of Directors more effective in view of the results of evaluations of the Board of Directors, and considering options with respect to organizational structure. During the current fiscal year, new personnel have been appointed as presidents of three important affiliated companies (JFR Card, J. Front Design & Construction, and Dimples') whose businesses require high management efficiency, and these personnel have also been concurrently appointed as Executive Officers of the Company. This is because the Company has confirmed that the strengthening of group governance requires the strengthening of oversight, auditing and business execution functions of operating companies. Governance is also strengthened by assigning Audit & Supervisory Board Members to each main affiliated operating company, setting up auditing functions horizontally covering these companies, and taking other measures. From now on, the Company will engage in

discussions and exchanges of views with respect to various issues on corporate governance, such as governance of group companies and the role of the holding company.

【Principle 4-9】 Criteria for Determining Independence of Outside Directors

For the criteria for determining independence of Outside Directors, please refer to “5. Criteria for Determining Independence of Outside Directors” in “Chapter 4. Roles and Responsibilities of the Board of Directors, etc.” of the Guidelines.

The Company has registered five Outside Directors as independent officers as stipulated by the financial instruments exchanges.

【Principle 4-11, Supplementary Principle 4-11-1】 Composition of the Board of Directors

For the composition of the Company’s Board of Directors, please refer to “2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)” in Chapter II of this Report.

【Supplementary Principle 4-11-2】 Concurrent Holding of Positions

For concurrent holding of officers positions at other listed companies by Directors and Audit & Supervisory Board Members of the Company, please refer to the Notice of Convocation of Shareholders Meeting (Business Report, Reference Materials for Shareholders Meeting).

- Notice of Convocation of the 11th Annual Shareholders Meeting (Year Ended February 28, 2018)
(http://www.j-front-retailing.com/english/ir/stock/pdf/180426_jfr_e.pdf)

【Supplementary Principle 4-11-3】 Evaluation of the Board of Directors

Continued from 2016, the Company performed the third evaluation by third-party organization of the Board of Directors from July to September 2017, in line with the transition to a company with three committees.

In light of the roles and responsibilities of the Board of Directors, an analysis/evaluation was performed for each of the items for evaluation, including the Board of Directors’ composition and its operational status, agenda items, materials for deliberations, level of explanation for proposals, supporting system for Outside Directors, and the effectiveness of three committees’ (nomination, audit and remuneration committees’) activities.

The evaluation was performed using a methodology whereby the third-party organization prepared a report containing summaries and analyses of the results of “individual interviews” and “direct observation of the Board of Directors through attendance at its meetings” (see Note) and the Board of Directors carried out deliberations on the evaluation based on the report.

(Note) “Individual interviews”

The third-party organization conducted individual interviews in which all Directors (both Internal and Outside) were inquired about their views and awareness of issues in response to various questions concerning the Board of Directors.

“Direct observation of the Board of Directors through attendance at its meetings”

The third-party organization was present at the meetings of the Board of Directors and directly observed the actual discussions held.

The evaluations of the Board of Directors conducted from July to September 2017 identified significant improvements compared to the previous evaluations regarding the level of the Board of Directors’ contribution to the entire Group, selection of appropriate agenda items that are substantially discussed, each Director’s contribution to discussions, and other matters. The enhancement of the corporate governance system through organizational structure changes and the level of each Committee’s contribution to the Board of Directors were also highly evaluated.

On the other hand, since there are opinions demanding the improvement of execution planning and proposal ability due to expectations towards further improving the effectiveness of the Board of Directors, the Company has started to review discussion materials to improve the planning and proposal accuracy from shareholder viewpoints. The Company has also newly established the Business Development Unit that is responsible for completing the business portfolio reforms and achieving corporate value enhancement to strengthen execution, and the Human Resources Strategy Unit that is responsible for preparing HR policies and further strengthening the promotion activities related to recruitment, assignment, cultivation and evaluation so that the growth of human resources (i.e., most important business resources) can lead to the entire group organization’s growth. The Company will continuously strive to share issues based on the evaluations of effectiveness of the Board of Directors, and ensure the effectiveness of the entire Board of Directors.

【Principle 4-14, Supplementary Principles 4-14-1, 4-14-2】 Training

The Company continuously provides opportunities to Directors and Executive Officers of the Company and Directors, Audit & Supervisory Board Members and Executive Officers of the main operating companies, to acquire and update knowledge, etc. they need to fulfill their roles and responsibilities with respect to oversight, auditing, business execution and other tasks.

The Company also provides Internal Directors and Executive Officers of the Company and Directors, Audit & Supervisory Board Members and Executive Officers of the main operating companies with useful information, etc. about corporate governance, compliance, and Group management. Furthermore, based on the result of the evaluation on managerial talent by the third-party organization, the Company sets and conducts training plans such as coaching which leads to the manifestation of achievement expected to each individual.

To help the top management share awareness of problems and enhance ingenuity in carrying out the Medium-term Business Plan, the Company also offers training to candidates for management personnel, including Executive Officers, at the “JFR Management Juku (cram school)” newly opened in FY2017. At the JFR Management Juku (cram school), at which external consultants deliver lectures and the President and Representative Executive Officer attends all day long every time it is held, the Company lets the attendees

reconsider its Medium-term Business Plan and relevant medium-term departmental plans from the President and Representative Executive Officer's viewpoints, and also lets them make presentations directly to the President and Representative Executive Officer. These presentations are subject to evaluation. In addition, the Company lets them prepare new business plans, etc., to prevent them from being only engaged in classroom learning, and then the Board of Directors gives them advice, recommendations, etc., on the contents of the said plans.

We arrange briefings for Outside Directors, when they are appointed as well as on a continuous and regular basis, providing details on the basic philosophy, Group Vision, Group Medium-term Business Plan and Group Management Policy, and also featuring content that includes details of JFR Group operations, its performance, financial standing and operational status.

【Principle 5-1】 Policy on Constructive Dialogue with Shareholders

For the policy on constructive dialogue with shareholders and other policies on information disclosure, please refer to “Chapter 3. Information Disclosure” of the Guidelines.

From financial results briefings for the year ended February 29, 2016, the Company has prepared a Fact Book to act as supplementary meeting material containing tables and graphs depicting secular trends with respect to major financial indicators and other management benchmarks, and has otherwise taken steps to further enhance communications with shareholders and other investors.

In addition, the Company released an integrated report in FY2017 that is replete with non-financial information. Included at the beginning of this report are the details of the Company's value creation process. This process is the means by which the Company aims to make effective and efficient use of its “six capitals” (financial capital, manufactured capital, intellectual capital, human capital, social and relationship capital, and natural capital) to circulate the Group's business model. In so doing, it aimed to create, as a public entity of society, new values with which its various stakeholders empathize.

Other Matters

- In May 2017, the Company abolished the Advisor System from a standpoint of achieving its ideal state of corporate governance and ensuring management transparency in connection with the organizational structure change to a company with three committees (nomination, audit and remuneration committees).
- Since the Company's current Advisors were appointed before the abolition of the Advisor System, no changes were made to their current terms of office. After retiring as Advisors, they may be appointed Senior Advisors to continuously engage in external activities. We understand that there are concerns and negative effects such that the current management is unfairly influenced, but the Company's Board of Directors has been playing its roles very transparently and objectively without such concerns and negative effects.
- In connection with the abolition of the Advisor System, the Company has reviewed its rules related to the treatment of retiring officers, and decided to appoint them to counselor positions and pay remuneration for a maximum of one year as long as former officers including former Presidents and Representative Directors carry out important external activities, etc. (e.g., the assumption of office as an outside director of another company, and business community activities). However, the selection and remuneration of counselors are resolved by the Nomination and Remuneration Committees, a majority of whose members are Outside Directors.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

The Board of Directors of the Company is to be composed of an appropriate number of Directors, but not more than 15, as stipulated in the Articles of Incorporation. The number of Directors is currently thirteen (13) (including five (5) independent Outside Directors, two of whom are female Directors), and the term of office is one year. From the standpoint of separating supervision and execution and ensuring the effectiveness of the Board of Directors' discussions, one-third or more of Directors are independent Outside Directors and a majority of Directors are independent Outside Directors and/or internally promoted Directors who do not execute business. The chairperson of the Board of Directors is chosen from among internally promoted Directors who do not execute business from the standpoint of separating supervision and execution and ensuring the smooth operation of the Board of Directors.

We take steps to ensure diversity when nominating candidates for positions of Director, upon giving consideration to bringing about a balance of knowledge, experience and abilities within the Board of Directors as a whole.

(3) Three Committees

(Nomination Committee)

The Nomination Committee is composed of three (3) Outside Directors, chairperson of the Board of Directors who do not execute business, and President and Representative Executive Officer. The chairperson is chosen from among independent Outside Directors from the standpoint of ensuring transparency and objectivity. The Nomination Committee determines the contents of proposals on the nomination and dismissal of Directors submitted to shareholders' meetings and the contents of reports submitted to the Board of Directors regarding the nomination and dismissal of management personnel of the Company and Daimaru Matsuzakaya Department Stores, as well as the chairpersons and members of three committees, and other matters.

(Audit Committee)

To maintain and improve audit accuracy, the Audit Committee is composed of three (3) Outside Directors and two (2) internal full-time Directors who do not execute business and are well informed about internal information. In addition, at least one of the Audit Committee members must have appropriate knowledge of finance and accounting. In accordance with the overall policy and plan determined by the Board of Directors, the Audit Committee audits the execution of business by Directors and Executive Officers, important matters submitted to the Board of Directors, and other individual matters the Audit Committee considers necessary, as well as the status of establishing and implementing internal controls, and then prepares audit reports.

To ensure the reliability of accounting information, the Audit Committee also oversees the Accounting Auditor, and determines the contents of proposals on the nomination and dismissal of such Auditor and other matters submitted for discussion at shareholders meetings.

The chairperson is chosen from among internally promoted Directors who do not execute business from the standpoint of achieving a smooth transition from the Audit & Supervisory Board system. However, the Company will consider reviewing this system and establishing a more appropriate system.

(Remuneration Committee)

The Remuneration Committee is composed of three (3) Outside Directors, chairperson of the Board of Directors who do not execute business, and President and Representative Executive Officer. The chairperson is chosen from among independent Outside Directors from the standpoint of ensuring transparency and objectivity. The Remuneration Committee determines the policy on deciding the contents of individual remuneration to management personnel of the Company and Daimaru Matsuzakaya Department Stores, and these contents themselves.

(4) Governance Committee

We have established the Governance Committee whose membership consists of the chairperson of the Board of Directors, President and Representative Executive Officer and all Outside Directors. The committee engages in free, open and constructive discussion and exchanges of views regarding issues of corporate governance and business management overall, including reformation of the Board of Directors on the basis of evaluations thereof. Moreover, the committee endeavors to facilitate information sharing and collaboration among the Outside Directors.

(5) Accounting Auditor

The Company has concluded an audit agreement with Ernst & Young ShinNihon LLC. The Accounting Auditor performs accounting audits in accordance with respective legal provisions. The Accounting Auditor adopts measures to prevent engagement partners from being involved in the accounting audits of the Company for longer than certain periods.

To provide support for enabling effective audits performed by the Accounting Auditor, the Company develops structures for:

- Ensuring that content of audit plans proposed by the Accounting Auditor is respected and allowing sufficient time to perform the audit, in order to enable high-quality audits;
- Arranging discussions between the Accounting Auditor and President and Representative Executive Officer and relevant Executive Officers on a regular basis (about two times per year);
- Arranging meetings between the Accounting Auditor and Audit Committee members and internal audit departments for the purpose of sharing information and exchanging views on a regular basis (about six times per year); and
- Enabling the Audit Committee to perform necessary investigations upon receiving a report from the Accounting Auditor detailing instances of material improprieties and illegal acts related to the execution of duties of Directors and Executive Officers; and enabling the Audit Committee to take necessary measures in that regard, that include reporting, furnishing advice and providing recommendations to the Board of Directors.

(6) Risk Management Committee and Compliance Committee

The Risk Management Committee manages and addresses strategic and other risks as a whole systematically from a company-wide perspective, and makes management decisions specifically focusing on risk management. The chairperson of this committee is President and Representative Executive Officer, and Committee members include Senior Executive General Managers and presidents of main operating companies. The committee assesses a variety of risks, prepares necessary measures, and conducts progress management, etc. using extensive specialized knowledge of Committee members chosen from among Units.

The Company has established the Compliance Committee (whose membership includes corporate lawyers) for the purpose of appropriately addressing issues of JFR Group compliance management practices. The chairperson of this committee is President and Representative Executive Officer, and the committee draws up a policy for addressing matters involving serious compliance-related violations, continuously oversees development of the foundations of compliance system (e.g. preparation of promotion systems and plans) and the status of implementation through close collaboration with departments in charge of promoting compliance, and promotes compliance with laws and regulations, corporate ethics, and other such standards.

The both committees also report details of its deliberations to the Audit Committee regularly (about two times a year) and in a timely manner.

(7) JFR Group Compliance Hotline

The Company has established a whistleblowing system that enables all JFR Group officers and employees as well as all individuals working at the JFR Group (including part-timers and employees seconded from business partners) to notify the Compliance Committee directly with respect to compliance-related issues, and to seek corrective action. The company has set up points of contact for whistleblowers both internally and outside the Company (corporate lawyers). The JFR Group's internal company rules rigorously provide for the whistleblowing system in terms of protecting the confidentiality of whistleblowers and prohibiting disadvantageous treatment thereof.

(8) Limited Liability Agreement

The Company concludes a limited liability agreement with each Director who does not execute business pursuant to the provisions of Paragraph 1, Article 427 of the Companies Act so that Directors who do not execute business can adequately fulfill their expected roles. The limited liability agreement stipulates that the maximum amount of liability for damages due to negligence of duties by an Director who does not execute business shall be the higher of twelve million (12,000,000) yen or the amount fixed by laws and regulations; however the limitation of liability is applicable only when the duties that caused the liability were executed by the Director who does not execute business in good faith and without gross negligence.

3. Reasons for Adoption of Current Corporate Governance System

The Company has adopted the organizational structure of a company with three committees (nomination, audit and remuneration committees). This is for the purpose of carrying out initiatives to further strengthen corporate governance from the following perspectives:

(1) Strengthening of the management oversight function by separating oversight from execution

The Company will strengthen the oversight function for business execution of the Board of Directors by separating oversight from execution. In addition, the Company aims to promote sophistication of strategy by having the Board of Directors actively include the insights of external persons in order to hold rigorous discourse on important strategic issues relating to the Group management.

(2) Greater clarity of authority and responsibility in business execution and promotion of agile management

The Company will enable decisions of business execution to be delegated to Executive Officers (Note), clarify the authority and responsibility between the Board of Directors and Executive Officers and between the holding company and the operating subsidiaries, and carry out speedy management decision making.

(Note) With regard to Executive Officers, although the English name is the same as Executive Officers, which were previously referred to as “*shikkoyakuin*” in Japanese, the Japanese name and their functions are different.

(3) Improvement of transparency and objectivity of management

The Company will improve the transparency and objectivity of management by adopting the structure of a company with three committees (nomination, audit and remuneration committees). The majority of the members of each of these committees are Outside Directors.

(4) Building an organizational structure compatible with global perspectives

Adoption of Anti-Takeover Measures	Not Adopted

Supplementary Explanation

Basic policy regarding control of the Company

[1] Contents of basic policy

The Company believes it is necessary for the party controlling the Company's financial and business policy decisions to be a party who sufficiently understands the financial and business details of the Group and the sources of the Group's corporate value, continuously and sustainably ensures that the corporate value of the Group and, by extension, the common interests of shareholders are served, and enables further improvement in this area.

As the Company is a listed enterprise, the Company's policy regarding its shareholders is that, in general, they are determined through free market transactions on the financial instruments market. Furthermore, even in the case of a purchase of shares of the Company above a certain scale by specific shareholders or specific groups (hereinafter "Large-Scale Purchase"), if this Large-Scale Purchase will contribute to the corporate value of the Group and, by extension, the common interests of its shareholders, the Company believes that this should not be rejected outright and that, ultimately, the decision on whether to accept or reject it should be left to the discretion of the Company's shareholders.

Nevertheless, a Large-Scale Purchase that involves a serious risk of causing damage to the corporate value of the Group may be envisaged. This may include a Large-Scale Purchase that, in view of its purpose and other factors, would demonstrably harm the Group's corporate value; one with the potential to involve substantial coercion of shareholders to sell shares of the Company; or one that would not provide sufficient time and information for the Company's Board of Directors and shareholders to consider factors such as the details of the large-scale purchaser's proposal, or for the Company's Board of Directors to make an alternative proposal.

A party attempting this kind of Large-Scale Purchase, which would not contribute to the corporate value of the Group and, by extension, the common interests of its shareholders (hereinafter, the "Large-Scale Purchaser"), would not be appropriate as a party controlling the Company's financial and business policy decisions. Accordingly, the Company believes that it is the duty of the Company's Board of Directors, which is entrusted by the shareholders to manage the Company, to respond to this kind of Large-Scale Purchase by ensuring that processes such as provision of information by the Large-Scale Purchaser and considerations and evaluations by the Company's Board of Directors are carried out, and securing sufficient time for the Company's Board of Directors and shareholders to consider the details of the Large-Scale Purchaser's proposal in order to prevent damage to the corporate value of the Group and, by extension, the common interests of its shareholders.

[2] Frameworks contributing to realization of basic policy

Since the foundation of Daimaru and Matsuzakaya, the Group has been engaged in businesses of kimono fabric stores and department stores for many years based on the corporate philosophies and traditional spirits of these businesses, which are: “Service before profit (those who place service before profit will prosper),” “Abjure all evil; pursue all good” and “In doing good to others, we do good to ourselves.”

The Company believes that the sources of the Group’s corporate value are the relationships of trust it has established with customers and with society, which have been refined on the basis of these philosophies and spirits.

Accordingly, in order to exemplify the principles of “customer-first principle” and “contribution to society,” which are in common with these philosophies and spirits, the Company has established the following basic philosophies of the Group: “to aim at providing high quality products and services that meet the changing times and satisfying customers beyond their expectations” and “to aim at developing the Group by making a broad contribution to society as a fair and trusted business entity.” Based on these basic philosophies, the Company implements a wide range of measures with the aim of realizing the Group’s vision; Create and Bring to Your Life “New Happiness,” in order to make a contribution to securing and enhancing the corporate value of the Group and, by extension, the common interests of shareholders.

[3] Framework to prevent parties deemed inappropriate in light of basic policy from controlling the financial and business policy decisions of the Company

At present, the Company has not specifically stipulated a concrete framework for a case in which a Large-Scale Purchaser appears, commonly known as takeover defense measures.

Nevertheless, the Company believes that, in order to prevent damage to the Group’s corporate value if a Large-Scale Purchaser appears, it is necessary to carefully examine the impact a Large-Scale Purchase would have on the Group’s corporate value after ascertaining certain information about the Large-Scale Purchaser. Such information would include the nature of the Large-Scale Purchaser, the purpose of the Large-Scale Purchase, the Large-Scale Purchaser’s proposed financial and business policies and their policy for handling shareholders, the Group’s customers, business partners, employees, the communities that surround the Group and other stakeholders.

Accordingly, if this occurs, the Company will establish an independent committee composed of outside officers and experts with viewpoints that are independent from the Company’s Internal Directors. If the Company judges that the said Large-Scale Purchaser is inappropriate in light of the aforementioned basic policy after considering advice and opinions from the committee, the Company will act to secure the Group’s corporate value and, by extension, the common interests of shareholders by taking necessary and appropriate measures.

[4] Judgment of the Company’s Board of Directors regarding concrete framework and reasons for such judgment

Various measures formulated by the Group are formulated based on the Group’s basic philosophy, and are

intended to further build up the relationships of trust with customers and with society, which are the sources of the Group's corporate value. Therefore, the Company believes that these measures are in line with the contents of the basic policy and contribute to securing and enhancing the corporate value of the Group and, by extension, the common interests of shareholders.

Furthermore, if the Company takes necessary and appropriate measures against a Large-Scale Purchaser judged to be inappropriate in light of the basic policy, the fairness, neutrality and rationality of this judgment will be ensured by making it in consideration of advice and opinions from an independent committee whose independence from the Internal Directors of the Company is assured. Accordingly, the Company believes that these measures would not damage the corporate value of the Group or the common interests of shareholders, and that they are not intended to maintain the positions of the officers of the Company.

The Company adopts a system where the Internal Audit Division carries out internal audits of daily

1. JFR's Approach to Corporate Governance

Ever since its management integration, the JFR Group has been engaging in initiatives that involve strengthening its competitiveness and profitability as a multifaceted retailer operating multiple businesses and constructing a business model for growth along with regions in which it operates.

However, we now face the prospect of an increasingly obsolete business model and other substantial changes emerging in the business environment in this era of changes occurring at an accelerating rate after having achieved a track record of successes spanning back over the last 50 years. As such, we are now finding it more difficult to generate growth by remaining on the path prescribed in terms of our current business model, and accordingly view our present situation as a turning point with respect to possibilities for drastically altering the course being taken by Group management.

Amid such trends, the JFR Group has been giving thought to the notion of what it is that makes people happy, and has consequently drawn up its new Group Vision. This new vision reflects our commitment to helping people lead emotionally fulfilling lives by strategically seeking expansion in current fields of business and transforming our existing businesses in hopes of providing new forms of value with respect to lifestyles as well as means of seeking enjoyment.

Accordingly, with the Group Vision pointing us in the direction we ought to be headed, we have shifted to a company with three committees (nomination, audit and remuneration committees) organizational structure as part of our efforts to enhance our managerial framework in a manner geared to substantially transforming the JFR Group while also achieving discontinuous growth.

They are to do so in accordance with of their fiduciary responsibility and accountability to shareholders, and with the aim of realizing the ideals of the Group Vision. Accordingly, these roles and responsibilities include:

The Company has recently adopted the company with three committees (nomination, audit, and remuneration committees). Rationale used in adopting this structure is as described below.

- (i) The Company will strengthen the oversight function for business execution of the Board of Directors by separating oversight from execution. In addition, the Company aims to promote sophistication of strategy by having the Board of Directors actively include the insights of external persons in order to hold rigorous discourse on important strategic issues relating to the Group management.
- (ii) The Company will enable decisions of business execution to be delegated to Executive Officers, clarify the authority and responsibility, and carry out speedy management decision making.

Chapter 2. Relationships with Shareholders

1. Shareholders Meetings

(1) Positioning of Shareholders Meetings

The Company regards the Shareholders Meeting as its highest decision-making body, and at the same time views the Shareholders Meeting as an important opportunity to engage in constructive dialogue with its shareholders.

(2) Developing an Environment Appropriate for Exercising Voting Rights and Other Rights of Shareholders

The Company endeavors to develop an environment at its Shareholders Meetings, which is its highest decision-making body and enables its shareholders to appropriately exercise their voting rights and other rights of shareholders, as described below.

- (i) We give consideration to ensuring time for audits in the course of setting dates on which Shareholders Meetings are to be held and schedules otherwise in relation to Shareholders Meetings.
- (ii) We ensure that there is adequate time for our shareholders to consider matters with respect to which they will exercise their voting rights. To that end, we send convocation notices as early as possible (with the aim of doing so at least three weeks prior to the date on which a Shareholders Meeting is to be held) and at the same time we submit such content to financial instruments exchanges and post it to the Company's website as early as practicably possible before sending out convocation notices.
- (iii) We upgrade the content of our convocation notices (containing sections that include the business report, financial statements, and reference materials for Shareholders Meeting) in a manner that provides our shareholders with a deeper understanding of the JFR Group and enables them to make appropriate decisions when exercising their voting rights. We also prepare English translations of our convocation notices and make them available so that our overseas investors are able to properly exercise their voting rights.
- (iv) We give consideration to ensuring that our shareholders are able to conveniently exercise their voting rights, including domestic and overseas institutional investors. To that end, we have adopted online and other means of exercising voting rights and otherwise use an electronic platform for exercising voting rights.
- (v) We act appropriately with respect to substantively ensuring that shareholders are able to exercise their rights to make proposals and other minority shareholder rights. Moreover, our Articles of Incorporation stipulate that a shareholder may exercise his or her voting rights by proxy upon completing the necessary procedures when a beneficial shareholder has filed to exercise rights as a shareholder beforehand.

(3) Analysis of Voting Results

The Company will analyze causes of opposition in situations where substantial numbers of voting rights have been exercised in opposition to a Shareholders Meeting proposal made by the Company, taking into consideration factors such as the content of the proposal, resolution requirements, the proposal in comparison with similar proposals made in the past, and the

percentage of voting rights exercised. Upon so doing, the Company will then respond by engaging in dialogue with shareholders and otherwise taking action deemed necessary, and will otherwise act on its findings by reviewing content of the subsequent fiscal year Shareholders Meeting proposal.

2. Capital Policy

(1) Basic Capital Policy

The Company believes that any increase in free cash flow and improvement in ROE should help to ensure its sustainable growth and increase corporate value over the medium to long term. To such ends, the Company promotes a capital policy that takes a balanced approach to undertaking strategic investment, enhancing shareholder returns, and expanding net worth being equipped to address risks.

Moreover, in procuring funds through interest-bearing debt we aim to achieve an optimal structure of debt to equity in a manner cognizant of our funding efficiency and cost of capital, carried out on the basis of having taken into consideration our capacity for generating free cash flows and our balance of interest-bearing debt.

A business strategy where higher sales are accompanied by profits and a financial strategy (encompassing the capital policy) that heightens profitability of invested capital are essential elements with respect to improving free cash flows and ROE. In addition, we believe it is crucial that we maximize our operating income and continually improve our operating margin by strengthening our core businesses and concentrating management resources on initiatives such as business field expansion and active development of new businesses.

(2) Shareholder Return Policy

The Company's basic policy is to appropriately return profits. Hence, while maintaining and enhancing its sound financial standing, the Company strives to provide stable dividends and target a consolidated dividend payout ratio of no less than 30%, taking profit levels, future capital investment, free cash flow trends and other such factors into consideration. The Company also gives consideration to the option of purchasing its own shares as appropriate, in accordance with aims that include improving capital efficiency and implementing a flexible capital policy.

(3) Respecting Rights of Shareholders In Cases Where Implementing Capital Policy Could Potentially Harm Shareholder Interests

The Company will take steps to ensure that interests of its existing shareholders are not unduly harmed should it engage in a management buyout or a large capital increase by means of third-party allotment of shares or should it otherwise implement capital policy that will bring about a change of controlling interests or a substantial dilution of shares. Accordingly, the Company will carefully consider the necessity and rationality of any such initiative at a meeting of the Board of Directors whose attendance shall include its Outside Directors who maintain a high degree of independence and consequently are not susceptible to conflicts of interest involving the Company's shareholders. Furthermore, the Company will fully explain

such matters to the shareholders and will otherwise ensure that all necessary and proper procedures are followed.

(4) **Basic Policy Regarding Control of the Company**

The Company believes it is necessary for parties controlling the Company's financial and business policy decisions to be parties who sufficiently understand financial and business specifics of the JFR Group and the JFR Group's corporate value, and who furthermore continuously and sustainably ensure the JFR Group's corporate value while enabling further improvement thereof.

The Company has not specifically stipulated so-called takeover defense measures involving concrete initiatives to be taken should a party attempt to acquire a large volume of the Company's shares and thereby damage the JFR Group's corporate value. However, the Company will act to prevent damage caused to the JFR Group's corporate value in the event that such a party attempting a large-scale acquisition emerges. Under any such scenario the Company will accordingly establish an independent committee whose membership is composed of its Outside Directors as well as experts who maintain viewpoints that are independent of the Company's Internal Directors. The Company will then consider advice and opinions of the committee as it acts to secure the JFR Group's corporate value by taking necessary and appropriate measures.

3. Cross-shareholdings

(1) **Policy on Cross-shareholdings**

The JFR Group reduces its cross-shareholdings as appropriate considering the market environment, share price trends and other such factors (cross-shareholdings are holdings of listed shares other than those of subsidiaries and associates which are not held for pure investment purposes). However, this does not apply to shares with respect to which rationale for such holdings has been verified by means of validation as described below.

(2) **Validation of Rationale for Cross-shareholdings**

The Board of Directors validates the rationale for the JFR Group to maintain its major cross-shareholdings on a yearly basis from both qualitative and quantitative perspectives. From a qualitative perspective, the Board of Directors considers such business strategies as maintaining harmonious and favorable business relationships with corporate customers and business partners and securing supply chains, and from a quantitative perspective, it considers dividend income and other economic rationale.

(3) **Policy on Exercising Voting Rights Regarding Cross-shareholdings**

Decisions with respect to voting on matters regarding cross-shareholdings are made from both of the following two perspectives: (1) we consider whether cross-shareholdings contribute to improving the sustainable growth and the corporate value over the medium to long term of the company whose shares are held; (2) we consider whether the cross-shareholdings contribute to improving the JFR Group's sustainable growth and corporate value over the medium to long term. We establish criteria for making rationale judgments, and also consider

the possibility of engaging in dialogue with companies whose shares we hold if necessary when we exercise voting rights.

4. Adoption of the International Financial Reporting Standards (IFRS)

The Group has adopted the International Financial Reporting Standards voluntarily in the interest of implementing effective management based on appropriate asset evaluation, applying business management that gives emphasis to the profit of the current period and ensuring accountability to domestic and overseas investors by improving the international comparability of financial information.

In monitoring our key financial indicators used in achieving objectives of the Medium-term Business Plan through efforts to realize our new Group Vision, we focus primarily on ROE for capital efficiency, consolidated operating profit for business profitability, free cash flows for profitability and stability, and ratio of equity attributable to owners of parent to total assets (equity ratio) for financial soundness.

5. Related Party Transactions

When engaging in transactions with Directors, the Company gains approval beforehand and reports afterwards pursuant to the provisions of Japan's Companies Act and the Rules of the Board of Directors. Moreover, we regularly verify whether or not there have been transactions between our officers and the JFR Group.

When conducting intra-group transactions involving listed subsidiaries and listed associates, we strive to ensure that no damage is incurred with respect to interests of any such company's minority shareholders. Accordingly, such transactions are generally to be carried out on the basis of business terms and conditions on par with those applicable to transactions conducted between independent parties.

Chapter 3. Information Disclosure

1. Constructive Dialogue with Shareholders and Investors

(1) IR Policy

Under the basic philosophy that “we aim at developing the Group by making a broad contribution to society as a fair and trusted business entity,” the Company promotes IR activities for the purpose of maintaining and developing relations of trust with stakeholders including shareholders and investors. Initiatives in that regard include engaging in organic collaboration among respective departments and sharing information among respective supervisory units of the Company and respective JFR Group companies, in the Group Management Meeting and other such forums.

(4) Improving Communications

The Company endeavors to improve communications by achieving timely disclosure and disseminating information via its website, while also pursuing initiatives that include holding financial results briefings, one-on-one meetings, briefing sessions for individual investors, meetings for overseas institutional investors and other such forums, and replying to daily inquiries made by shareholders and investors. Moreover, we conduct what is referred to as shareholder identification surveys to identify the Company’s shareholder ownership structure, thereby putting that information to use toward improving communications with our beneficial shareholders. The comments and requests received from shareholders and investors are shared widely among those in the Company and related JFR Group companies, and we draw on such feedback in the course of managing the Company with the aim of increasing our corporate value.

The Company works to further improve communications in order to build stable relationships of trust with its stakeholders, and has accordingly established the Corporate Governance Promotion Division as a department that integrates the three functions of investor relations (IR), shareholder relations (SR) and public relations (PR).

2. Appropriate Disclosure of Company Information

Meanwhile, upon any emergence of urgent company information that would not accord with the aforementioned procedures, that information is to be promptly disclosed after passing through the requisite organizational decision.

The Legal Division, Financial Strategy Unit and Corporate Governance Promotion Division handle the task of summarizing specifics of disclosure information, and the Legal Division or the Financial Strategy Unit handles clerical procedures of disclosure. Furthermore, the Corporate Governance Promotion Division responds to inquiries and other communications related to disclosure.

(4) Appropriately Managing Insider Information

With respect to company information, particularly significant event having an effect on investment decisions of investors, and information that is subject to timely disclosure requirements as stipulated by financial instruments exchanges, we develop structures for appropriately managing it by stipulating the Rules for Preventing Insider Trading that includes procedures for handling and managing such information, and responsible managers.

Moreover, in order to prevent the leakage of financial information and ensure fairness, the Company refrains from answering any questions concerning financial results during the quiet period from the day following the closing date of each quarter until the release of financial results. - (1) Policy for Decisions of the Audit Committee on Proposals for Election, Dismissal and Non-reappointment of the Accounting Auditor

The Audit Committee draws up criteria in advance for selecting and evaluating the Accounting Auditor, that is composed of matters relating to the auditor's independence, expertise and other aspects of executing the audit, with the aim of ensuring that the Accounting Auditor properly carries out the audit. On the basis of that criteria, the Audit Committee sufficiently exchanges views with the management team, and then makes decisions on proposals for election, dismissal and non-reappointment of the Accounting Auditor that are submitted to the Shareholders Meeting.

The Audit Committee is to take necessary measures that include dismissing the Accounting Auditor upon resolution of the committee, or otherwise making a decision on proposals to dismiss or not reappoint the Accounting Auditor submitted to the Shareholders Meeting, in the event that the Audit Committee deems it appropriate to dismiss or otherwise not reappoint the Accounting Auditor either if there are grounds for dismissal as provided for in Article 340, Paragraph 1 of the Companies Act of Japan, or if a situation arises whereby the audit of the

Company has been significantly impeded such as would be the case if the supervisory authorities were to issue an order requiring suspension of auditing activities.

(1) Basic Ideas on Risk Management

The Company regards risk as uncertainty embodied by the effects of an organization's profit or loss, and accordingly defines risk management as the notion of engaging in initiatives seeking to maximize returns by taking risks while keeping the potential negative effects of risk in check.

In order to effectively manage risk, we have established a three-tiered system of checks performed in-house, as follows:

- (i) Tier 1: On-site checking performed on a daily basis by business subsidiaries and other such entities
- (ii) Tier 2: Checking performed on a routine basis via administrative departments of the head office and via meeting frameworks and other such forums that enlist the involvement of management teams
- (iii) Tier 3: Checking from an independent viewpoint performed on a routine basis by the Internal Audit Departments

(3) **Overseeing and Disclosing the Operational Status of Internal Control Systems**

The operational status of internal control systems of the overall JFR Group is reported to the Board of Directors regularly (about two times per year) and in a timely manner, and the Board of Directors engages in appropriate oversight in that regard. Moreover, summaries of the operational status are disclosed in our convocation notices for Shareholders Meetings (in the Business Report section).

The Company has newly established the Risk Management Committee under its management execution framework as a separate organization entity from the former Compliance and Risk Management Committee so that it can better systematically manage and address risks as a whole from a Group-wide perspective, particularly with respect to risk related to positive strategies that are geared to tapping growth opportunities.

Drawing on extensive specialized knowledge of committee members chosen from among respective supervisory units, the Risk Management Committee assesses a variety of risks, prepares necessary measures, instructs departments to take charge of implementing such measures, and monitors progress in that regard.

Risk Management Committee reports details of its deliberations to the Audit Committee regularly and in a timely manner.

The Company has established a whistleblowing system that enables all JFR Group officers and employees as well as all individuals working at the JFR Group (including part-timers and employees seconded from business partners) to notify the Compliance Committee directly with respect to compliance-related issues, and to seek corrective action. The Company has set up points of contact for whistleblowers both internally and outside the Company (corporate lawyers).
