**【Reasons for Non-compliance with the Principles of the Corporate Governance Code】**

The Company has implemented all of the principles of the Corporate Governance Code (revised on June 11, 2021) .

**【Disclosure Based on the Principles of the Corporate Governance Code】** Update

**【Principle 1-4】** Cross-shareholdings

[Policy on Cross-shareholdings]

In principle, the JFR Group will not newly acquire cross-shareholdings (cross-shareholdings are holdings of listed and unlisted shares other than those of subsidiaries and associates which are not held for pure investment purposes). However, this does not apply to shares where it has been recognized that they are necessary for the promotion of the JFR Group’s business strategy, and that the holding of such shares will contribute to the increase of corporate value in the medium to long term through the validation of rationale for holding them.

For cross-shareholdings (listed and unlisted shares) that have been judged as not being rational in the verification result, the Group will negotiate with companies whose shares we hold, and appropriately reduce cross-shareholdings that are already held upon reaching a consensus regarding sale method, period, etc.

[Validation of Rationale]

Every year, the Board of Directors validates the rationale of holding individual issues from both quantitative and qualitative perspectives. The qualitative perspective relates to business strategies such as maintaining harmonious and favorable business relationships with companies with which the Company makes up a community, corporate customers and business partners, and securing supply chains. The quantitative perspective relates to whether profitability by holding shares, including related trading profits and dividends, exceed capital costs, etc.

As a result, the JFR Group maintained cross-shareholdings in 137 issues as of February 28, 2026 (of which 10 are listed issues).

- \* For details of the process and schedule for the validation of the rationale of holdings, and changes in the number of issues held, please refer to “The Company’s Cross-Shareholdings,” appended to this report.

[Policy on Exercising Voting Rights Regarding Cross-shareholdings]

Decisions are made from both of the following two perspectives: we consider whether cross-shareholdings contribute to improving the sustainable growth and the corporate value over the medium to long term of the company whose shares are held; we consider whether the cross-shareholdings contribute to improving the JFR Group’s sustainable growth and corporate value over the medium to long term. Specifically, in regard to proposals that we consider to be of high priority with respect to strengthening corporate governance, such as proposals relating to the corporate governance system (selection of company officers), proposals relating to shareholder return (appropriation of surplus), and proposals that have an effect on shareholder value (introduction of takeover defense measures), we establish policies upon which to base judgment of our exercise of voting rights, and acting as the JFR Group as a whole, we take a response that is in line with such policies. We engage in dialogue with companies whose shares we hold if necessary when we exercise voting rights.

For shareholdings, please refer to the Annual Securities Report for the 19th fiscal year (on pages 111 to 116).

**【Principle 1-7】 Related Party Transactions**

For the procedure, etc. for related party transactions, please refer to “5. Related Party Transactions” in “Chapter 2. Relationship with Stakeholders” of the Guidelines.

**【Supplementary Principle 2-4-1】 Ensuring Diversity, Including Active Participation of Women**

The Company recognizes that diversity of human resources is the source of value co-creation capability of a company, and considers that the cooperation of diverse human resources across organizational boundaries, involving people around them, enables the combination of different elements to create new value. In addition, we have set “empowering diverse human resources to shine” as one of the areas of materiality (important

issues) to be prioritized for sustainable growth of the company and realization of a sustainable society. By setting medium- to long-term goals and implementing specific measures, we aim to realize a company that respects and embraces diversity.

As its human resource development policy to ensure diversity in human resources, The Company aims to face each and every one of them and establish a human resources portfolio supporting execution of its strategies.

As its internal environment development policy, the Company will promote unified management of information on human resources and work to strengthen diversity-driven value co-creation capability by assigning a person responsible for DE&I within the Human Resources Strategy Unit, building a talent management system, and other means.

#### [Active Participation of Women]

As a voluntary and measurable goal, the Company has set the target ratio of women in management positions for FY2026 at 31% in the entire Group in the Medium-term Business Plan from the perspective of encouragement of active participation of women and has been striving to achieve this goal. Under the structure of the Board of Directors, the Company has appointed ten Directors including four female Directors.

To execute this goal, we conducted an employee questionnaire to clarify barriers to the active participation of women, and took steps to lower these barriers by enhancing systems and holding training programs such as the “Career Forum for Women” and “Networking for Women,” and we continue to cultivate a mindset and improve skills for promoting women’s leadership and encouraging their promotion to management positions.

For female employees in leadership positions, please refer to the following page on our website. (<https://www.j-front-retailing.com/english/sustainability/diversity/diversity01.html>)

#### [Foreign nationals]

Although we have not set targets for hiring foreign nationals in the Group, we are broadly recruiting human resources regardless of nationality to achieve our management strategy.

Number of new graduate foreign nationals hired by the Group in April 2026: 5 (total of 128 new graduates)

Total number of new graduate foreign nationals hired by the Group over the past 5 years: 9

#### [Mid-career employees]

The Company is actively bringing the experience and insight from outside into the Company with around half of our recruits experienced, particularly in fields such as finance, legal and IT/digital due to the sophistication of our operations. In addition, the Group as a whole is widely appointing, from outside the Company, managerial talent to secure strategy promotion speed in specific fields such as Digital Strategy and Credit Card and Finance Businesses, and human resources with advanced expertise and rich careers that we do not have in-house at present, and arranging flexibly to strengthen strategy execution.

#### [Disabled Persons]

Because we recognize that employment of people with disabilities is one of the social responsibilities that companies should fulfill from the perspective of sustainability management, we aim to secure a stable work environment for people with disabilities, and to create a workplace where they can be motivated to use their

abilities. “JFR Create Co., Ltd.” was established and the company was certified as a Special Subsidiary Company under the law in September 2017.

In addition, each operating company within the Group is working on its own initiatives for recruitment of people with disabilities to achieve the Group’s overall goal of an employment rate for people with disabilities of 3.0% by FY2030.

Ltd., a main operating company of the Group, it was officially announced in August 2025 that the “Asset Owner Principles” would be adopted. The plan is managed with high transparency and sustainability in accordance with the five principles. In line with the asset management objective of ensuring stable sources of future benefits, efforts are made to optimize asset allocation with a focus on risk diversification to achieve long-term investment returns. In selecting an investment management organization and a fund, the Company has established its asset investment policy and conducts reviews of management details, social assessments, investment experience and results, legal compliance system, etc., based on evaluations by reputable third-party appraisers to ensure objectivity. Additionally, the Company has joined the “Corporate Pension Funds Stewardship Initiative” and continuously monitors the outcomes of voting rights exercises and engagement activities conducted by the said organization, ensuring appropriate management. <Investment in Human Capital and Intellectual Property, Etc.>

The Company believes it is human resources only that can open the way to the future in a highly uncertain environment, and has positioned human resources as the most important value co-creation partners. Aiming to become a value co-creator retailer in 2030, the Group has established a shared human resource management policy of “Power to Involve Others, Mindset to Enjoy Challenges,” which it will adopt as its basic approach of human resource strategy.

To strengthen and cultivate value co-creation capabilities, we will promote measures such as management reforms and DE&I promotion, and human resource exchanges between Group companies, and seek to transform our human resource portfolio and acquire specialist human resources to support the realization of our management strategy. In human resource development, we believe that assigning the right person to the right place is particularly important, and promote the growth of human resources by emphasizing the potential of each individual and realizing appropriate placement for all generations, ranging from young employees to senior employees.

With the particular importance of bringing forth management and executive candidates, the Company carries forward strategic human resource development that positions members selected from the pool of human resources at each layer as next-generation key personnel and allows them to shine in the next stage.

we aim for. In this process, we will quantify the gap in each segment between our staffing requirement forecast and our medium-term business strategy, set measures and KPIs regarding the cultivation and acquisition of the human resources needed for our management strategy, and actively implement investments in human resources. The Board of Directors regularly confirms details of human resource strategies and progress of measures, taking into account the importance of human resources who support sustainability management.

**【Supplementary Principle 4-11-3】 Evaluation of the Effectiveness of the Board of Directors**

The Company's evaluation of the effectiveness of the Board of Directors by a third-party organization has been conducted annually since 2015.

[Items Evaluated]

There were about 40 items, including: (i) The Board of Directors' contribution to the entire Group, (ii) the Board of Directors' composition, (iii) its operational status, (iv) the content of deliberations, and (v) the effectiveness of activities of the Nomination, Remuneration and Audit Committees.

[Evaluation Methodology]

The method used was based on a questionnaire distributed beforehand, after which "individual interviews" conducted by the third-party organization, the results of which were collated and analyzed in the form of a report, which was then deliberated by the Board of Directors.

[Evaluation Results and Issues, etc.]

The Company conducted its tenth evaluation of the effectiveness of the Board of Directors between November 2025 and January 2026. Based on the results of the prior questionnaires given to all Directors, a third-party organization conducted individual interviews, and those details were discussed at a meeting of the Board of Directors held in February.

As a result of the evaluation of effectiveness, it was confirmed that the issues raised in the previous fiscal year, which were "revising standards for agenda items and putting items on the agenda," "improvements in the operation of the Board of Directors," and "strengthening of the audit function," had been resolved to a reasonable extent. On the other hand, the evaluation for FY2025 identified issues such as "articulating roles of the holding company and its Board of Directors," and "thorough preparation and analysis in preparation for discussions of growth strategy."

In response to this, approaches for resolving these issues were again discussed at a meeting of the Board of Directors held in March, thereby articulating concrete plan of action and promotion frameworks that have been reflected in the agenda for the Board of Directors in FY2026.

We will continue to strive to share issues based on the evaluation of the effectiveness of the Board of Directors and substantively improve the effectiveness of the Board of Directors.

**【Supplementary Principles 4-14-2】 Training**

The Company continuously provides opportunities to Directors and Executive Officers of the Company and Directors, Audit & Supervisory Board Members and Executive Officers of the main operating companies, to acquire and update knowledge, etc. they need to fulfill their roles and responsibilities with respect to oversight, auditing, business execution and other tasks.

The Company also provides useful information, etc. about corporate governance, compliance, and Group management. Furthermore, based on the result of the evaluation on managerial talent by the third-party organization, the Company sets training plans such as coaching which leads to the manifestation of achievement expected to each individual.

[Candidates for Management Personnel, Including Executive Officers]

The Company helps the top management share awareness of problems and enhances the ingenuity needed for formulating and carrying out the Medium-term Business Plan, by holding the “JFR Management Juku (tutoring school),” hosted by the President and Representative Executive Officer. #### Supplementary Explanation

Basic policy regarding control of the Company

[1] Contents of basic policy

The Company believes it is necessary for the party controlling the Company's financial and business policy decisions to be a party who sufficiently understands the financial and business details of the JFR Group and the sources of the JFR Group's corporate value, continuously and sustainably ensures that the corporate value of the JFR Group and, by extension, the common interests of shareholders are served, and enables further improvement in this area.

As the Company is a listed enterprise, the Company's policy regarding its shareholders is that, in general, they are determined through free market transactions on the financial instruments market. Furthermore, even in the case of a purchase of shares of the Company above a certain scale by specific shareholders or specific groups (hereinafter "Large-Scale Purchase"), if this Large-Scale Purchase will contribute to the corporate value of the JFR Group and, by extension, the common interests of its shareholders, the Company believes that this should not be rejected outright and that, ultimately, the decision on whether to accept or reject it should be left to the discretion of the Company's shareholders.

Nevertheless, a Large-Scale Purchase that involves a serious risk of causing damage to the corporate value of the JFR Group may be envisaged. This may include a Large-Scale Purchase that, in view of its purpose and other factors, would demonstrably harm the JFR Group's corporate value; one with the potential to involve substantial coercion of shareholders to sell shares of the Company; or one that would not provide sufficient time and information for the Company's Board of Directors and shareholders to consider factors such as the details of the large-scale purchaser's proposal, or for the Company's Board of Directors to make an alternative proposal.

A party attempting this kind of Large-Scale Purchase, which would not contribute to the corporate value of the JFR Group and, by extension, the common interests of its shareholders (hereinafter, the "Large-Scale Purchaser"), would not be appropriate as a party controlling the Company's financial and business policy decisions. Accordingly, the Company believes that it is the duty of the Company's Board of Directors, which is entrusted by the shareholders to manage the Company, to respond to this kind of Large-Scale Purchase by ensuring that processes such as provision of information by the Large-Scale Purchaser and considerations and evaluations by the Company's Board of Directors are carried out, and securing sufficient time for the Company's Board of Directors and shareholders to consider the details of the Large-Scale Purchaser's proposal in order to prevent damage to the corporate value of the JFR Group and, by extension, the common interests of its shareholders.

[2] Frameworks contributing to realization of basic policy

Since the foundation of Daimaru and Matsuzakaya, the JFR Group has been engaged in businesses of kimono fabric stores and department stores for many years based on the corporate philosophies and traditional spirits of these businesses, which are: “Service before profit (those who place service before profit will prosper),” “Abjure all evil; pursue all good” and “In doing good to others, we do good to ourselves.”

The Company believes that the sources of the JFR Group’s corporate value are the relationships of trust it has established with customers and with society, which have been refined on the basis of these philosophies and spirits.

Accordingly, in order to exemplify the principles of “customer-first principle” and “contribution to society,” which are in common with these philosophies and spirits, the Company has established the following basic philosophies of the JFR Group: “to aim at providing high quality products and services that meet the changing times and satisfying customers beyond their expectations” and “to aim at developing the JFR Group by making a broad contribution to society as a fair and trusted business entity.” Based on these basic philosophies, the Company implements a wide range of measures with the aim of realizing the JFR Group’s vision; Create and Bring to Your Life “New Happiness,” in order to make a contribution to securing and enhancing the corporate value of the JFR Group and, by extension, the common interests of shareholders.

[3] Framework to prevent parties deemed inappropriate in light of basic policy from controlling the financial and business policy decisions of the Company

At present, the Company has not specifically stipulated a concrete framework for a case in which a Large-Scale Purchaser appears, commonly known as takeover defense measures.

Nevertheless, the Company believes that, in order to prevent damage to the JFR Group’s corporate value if a Large-Scale Purchaser appears, it is necessary to carefully examine the impact a Large-Scale Purchase would have on the JFR Group’s corporate value after ascertaining certain information about the Large-Scale Purchaser. Such information would include the nature of the Large-Scale Purchaser, the purpose of the Large-Scale Purchase, the Large-Scale Purchaser’s proposed financial and business policies and their policy for handling shareholders, the JFR Group’s customers, business partners, employees, the communities that surround the JFR Group and other stakeholders.

Accordingly, if this occurs, the Company will establish an independent committee composed of outside officers and experts with viewpoints that are independent from the Company’s Management Team and Internal Directors. If the Company judges that the said Large-Scale Purchaser is inappropriate in light of the aforementioned basic policy after considering advice and opinions from the committee, the Company will act to secure the JFR Group’s corporate value and, by extension, the common interests of shareholders by taking necessary and appropriate measures.

[4] Judgment of the Company's Board of Directors regarding concrete framework and reasons for such judgment

Various measures formulated by the JFR Group are formulated based on the JFR Group's basic philosophy, and are intended to further build up the relationships of trust with customers and with society, which are the sources of the JFR Group's corporate value. Therefore, the Company believes that these measures are in line with the contents of the basic policy and contribute to securing and enhancing the corporate value of the JFR Group and, by extension, the common interests of shareholders.

Furthermore, if the Company takes necessary and appropriate measures against a Large-Scale Purchaser judged to be inappropriate in light of the basic policy, the fairness, neutrality and rationality of this judgment will be ensured by making it in consideration of advice and opinions from an independent committee whose independence from the Internal Directors of the Company is assured. Accordingly, the Company believes that these measures would not damage the corporate value of the JFR Group or the common interests of shareholders, and that they are not intended to maintain the positions of the officers of the Company.
